## Company

Precision Manufacturing Co. Inc. is an Ohio company founded in 1967. PMCI is a wire harness and electro-Mechanical assembler and manufacturer. In addition the company performs sourcing sub assemblies, kitting and packaging functions. PMCI specializes in harness reverse engineering. Precision Manufacturing is Hub Zone Certified and Woman Owned.

## Principals

Faye Ledwick is the founder and company owner. She is a business professional with forty years of small business management and ownership experience. Donnie Hill, Vice President, holds a BS degree from James Madison University. He has 25 years of experience managing small and large privately held companies. Mr. Hill brings significant experience in lean manufacturing, quality control systems and sourcing. He is in charge of all day to day operations.

## Capabilities

- Prototyping
- Component sourcing
- Built to print harnesses
- Built to print control boxes & electrical assemblies
- Reverse engineering from drawing or sample

## Past Projects

- Harness build, component sourcing and kitting for USEC uranium enrichment project.
- Built control harnesses for radar jamming missile pod US Navy
- Electrical control boxes & harnesses for world leader in fire suppression systems.

## Company Designations

<b>ORCA Registration:</b>	<b>COMPLETE</b>
<b>NAICS CODES</b>	<b>336322</b>
<b>SIC CODES</b>	<b>3643 / 3647 / 3695 3699 / 3695</b>

## Key Product

Precision Manufacturing builds wire harnesses, control boxes and electrical mechanical assemblies for industrial, automotive, defense and government organizations. The harnesses range from basic wire straps to complex assemblies. These assemblies have hundreds of wires, terminals, connectors and various other components in the harness. The control boxes have up to 300 wires with circuit boards, relays, diodes and resistors. PMCI also is a tier 1 kitting supplier providing sourcing, assembling and packaging to any customer standard.

## Services

Prototyping, component procurement, assembling to blue print standards. We perform complete testing of all assemblies and reverse engineering services.

## Facilities and Equipment

- Schleuniger Crimp Center 64 Wire Termination machine equipped with quality crimp monitoring systems.
- Stapla Ultra Sonic Wire Splicing
- Member of PTAC and EMTEC
- HUB Zone Certified
- 12,000 sq. ft. Building with additional 30,000 sq. ft. available

## Customers

- DSC Richmond
- USEC
- Clarke Fire Protection
- Textron
- Navel Surface Warfare Center CRANE Navy Base
